**Texas Cobbler Mix**

"I have a very dear friend, Dale, who is stationed over in Iraq. He always loves coming to our house for dessert! I was trying to think of how I could send him some yummy desserts from Homemade Gourmet®. His "grocery supplies" are very limited - to NONE, and he only has a microwave. So I decided to send him the Old Fashioned Apple Crisp mix with cherry pie filling (he prefers cherries) and an aluminum cake pan. He said the ground gets so hot over there

that he could probably bake it on the ground! I told him if it works, let me know and send me photos. So here are his comments." Barb H., Independent Distributor

"Hey –I'm cooking my pie, seems we are getting ready for a sandstorm though!! Might have to pull the plug on it, I'll keep at it though. I made a "boy scout solar cooker"...love and miss ya's. P.S. I'm not cooking it on the grill, just getting it off the ground." Dale

God Bless America and our brave brothers and sisters who serve and protect us all.
